

ENABLING ONE-TO-ONE COMPUTING FOR STUDENTS AND EDUCATORS

Lenovo Mini Series are smaller notebooks for classroom use; they are tested to destruction, easy to manage and affordable.

Lenovo 300e 2nd Gen (AMD)

Smarter
technology
for all

Lenovo

Designed with a focus on versatility, this mini convertible laptop with AMD 3000 series mobile processor offers four flexible modes of interaction for teaching, learning and collaborating; Laptop, Tent, Stand and Tablet. 10% thinner than the previous generation, the device is easy to carry around, while its rugged build ensures it can withstand the rigors of school life. The optional world-facing 5MP camera makes it easy for students and teachers to capture photos for class assignments.

REASONS TO BUY

In Tablet Mode, everyday classroom activities like drawing, writing and gameplay are more immersive; use the optional digital pen or even a regular pencil to interact with the screen. Fold the device to a different angle and students can watch videos and online demonstrations without the keyboard getting in the way.

Built to withstand the school day: from the classroom to field trip and beyond. It passes 16 MIL-STD 810G tests, boasts reinforced ports and hinges and has a spill-proof keyboard.

Using Intune for Education, schools can deploy a classroom's devices and apps in less than an hour and automatically create class rosters with School Data Sync.
